

## PRODUCT LINES AND REPRESENTATION

Applied Controls is a manufacturer's representative of industrial process controls, serving the oil & gas, refining, power, chemical, food & beverage, cement, and general industry.

### ON-LINE ANALYZERS

Analyzer Systems Engineering, Design, Integration, and Service

## SIEMENS

Continuous Gas Analyzers (Environmental & Process)  
In-Situ Gas Laser

Fixed and Temporary / Wired and Wireless Ambient Air Monitors for Toxic and Combustible Gases, Controllers Wired and Wireless, Solar Power Systems, Flame Detection

Liquid Analyzers for:  
pH, ORP, Conductivity, Turbidity, DO, TOC  
Auto Insert/Retract, Cleaning, Calibration Systems,

Gas Phase Analyzers for:  
O<sub>2</sub>, CO<sub>2</sub>, CO, H<sub>2</sub>S, HC, NH<sub>3</sub>, others

## Orion™

On-Line Water Quality Analyzers,  
Lab and Bench Top Equipment

Gas and Liquid Process Analyzers

### INSTRUMENTATION

## SIEMENS

Measurement Instruments for Pressure, Temperature, Flow, Level, Weight, Process Control & Protection

Instrument Enclosures, Shelters, Cabinets, Sunshades, Enclosure Heaters

Signal Conditioning, HMI Systems, Wireless Solutions, Purge and Pressurization Systems, Engineered System Integration, Intrinsically Safe Mobile Devices

Electronic Level, Mechanical Level, Sight Flow Indication, Chemical Process Equipment, Engine & Gas Compressor Equipment

### HEATING SYSTEMS

Heat Trace Engineering & Design Services  
Heat Trace Field Services

#### HEAT TRACE

Electrical, Steam, Controls & Monitoring, Heat Trace Compounds

#### HEATED BLANKETS

Electric Traced Insulated Blankets

#### HEATING SYSTEMS

Engineered Heating Systems, XP Gas Catalytic Heaters, Harsh Environment Heaters, Drying Heaters, Engineered Filters

#### TEMPORARY POWER SOLUTIONS

GP and Hazardous

#### TUBING BUNDLES

Electric or Steam Pre-Traced Tubing Bundles, Preinsulated Tubing
